

## Service Delivery Programs

### Employment Security Division Report

1. Cook Inlet Tribal Council, Inc. has been put on the One-Stop Job Center Map! CITC has attained *Satellite Job Center* designation by the One-Stop Operator. During the last fiscal year the Department was forced to close two job centers in Delta and Petersburg. Cook Inlet Tribal dedicated a good portion of their new facility off Boniface Pkwy and resources to the workforce development endeavor and greatly helped ESD with its ALEXsys rollout. CITC has been an operational partner in the One-Stop system for many years and it is with great pleasure (and long overdue) that this designation is made.
2. Veterans Employment and Training Services changes: Veterans' Program Letter No. (VPL No.) 06-07 *Transition Assistance Program (TAP) Employment Workshop Initiatives* require additional time with US Army Service Members. It is now 2.5 days for soldiers stationed at Ft. Wainwright and Ft. Richardson. Other branches of service already have three day TAP Workshops. Alaska already meets or exceeds the new standards and they include the requirement to complete draft resume at the end of the workshop; every service member will have a mock interview session (role playing); every service member will be able to access their state job board and locate their career one-stop center and representatives.
3. ESD will be rolling out a new Skills Inventory Marketing Campaign to encourage workers and employers to use the skills matching functions of ALEXsys. We will be asking all partner agencies to help with this roll out and we will provide training and resources for this initiative. It will directly support our state's efforts in the AGIA project by facilitating Alaska Hire and use of Alaska Businesses throughout the life of the project.
4. Employment and Services Numbers for SFY 07:

Participants	109,565
Entered Employment	31,413
Staff Assisted Services	60,383
Services to Veterans	3,335
